JOSE MARIA IPIO

Frontend Developer and UX/UI Designer

📞 +639303835381   ✉ jomaipio@gmail.com   🔗 jomaipio.vercel.app   📍 Montalban Rizal, Philippines

EXPERIENCE

UX/UI Designer

30DaysOfReact   📅 08/2024 - Present   📍 Volunteer (Remote)

- redesigning an existing fullstack learning web application in Figma with Google Ad placement strategy in mind.
- introduce effective user experience from page navigation, readabilty and nudge to action that prioritize the user's needs.
- personally reaching out to the contributor for reviews and feedbacks.

Junior Developer

Personal Projects   📅 07/2021 - Present   📍 Montalban City,Philippines

- design and build web application with NextJS (ReactJS) and Tailwind CSS.
- building a solid foundation in web development; from reading documentations, writing and testing reusable componets up to refactoring a production-level code with Github and Vercel.
- participating in online courses, dev challenges and reaching out professionals in the same field on various platforms.

Data Labeller

Remotasks   📅 08/2020 - 10/2023   📍 Freelance (Remote)

- combination of audio listening, categorization and transcription.
- 2D/3D annotation and segmentation of vehicles, pedestrian, highway, roads and dashcam footages.
- labeling data to create training datasets for AI Image Generation.

YouTube Content Creation

YouTube   📅 06/2020 - 02/2024   📍 Part Time (Remote)

- managed a small gaming channel with accumulative 400+ long form videos and more.
- applied creativeness in graphic design and video editing with Filmora, Adobe Photoshop and even Microsoft PowerPoint.
- familiarity with YouTube Studio for data analysis to optimize content performance.

EDUCATION

Bachelor of Sciences in Information Technology

ICCT Colleges - San Mateo Campus

📅 05/2018 - 05/2022   📍 San Mateo Rizal, Philippines
